

YOUR  
GUIDE TO  
SUMMER  
STYLE

Instantly update your warm-weather wardrobe with these helpful hints.

J.CREW

# JUST ADD COLOR

We're all about hue  
the brighter the better.

## Style Tip:

A summer-ready shift  
makes a solid impression  
in vivid green (there's no  
way you'll go unnoticed).  
Slip on snakeskin flats  
for extra kick.

*Featuring the  
Lucille dress.*

## Style Tip:

The trick to pulling off  
hot pink pants? Pair  
them with a never-fail  
neutral, like navy, on  
top so they really pop.

*Featuring  
the café capri.*

## PICK A PATTERN

Go ahead and give the world an (art) show in an outfit centered around a statement-making print.

### Style Tip:

Think leopard print pants are a little too wild? Tame them with a classic white shirt (tied, not tucked) for a carefree, casual vibe.

*Featuring the abstract leopard café capri.*

### Style Tip:

Put a tomboy twist on a ladylike floral skirt with a chambray shirt and sporty sneakers.

*Featuring the garden floral No. 2 pencil skirt.*

*Did you know?*  
A vintage scarf...a swatch of wall paper...When it comes to the inspiration behind our prints, the sky's the limit (that's what makes them so special).

# SAY YES TO STRIPES

We never met a stripe we didn't like. At the J.Crew offices, we treat them like neutrals (and so can you).

## Style Tip:

It's more than okay to mix your stripes (especially when they are in the same color family). A double dose of vertical lines is instantly slimming.

*Featuring the seersucker No. 2 pencil skirt.*

## Style Tip:

Think beyond nautical navy and white. Pink perks up a classic cashmere boatneck and chic shorts while pedi-ready sandals add just the right amount of polish.

*Featuring our Italian cashmere stripe boatneck tee.*
